

Thunderstruck Resources is an active and engaged member of the communities in which we operate in Fiji. Our employees live locally and participate in local community activities. As a company, our goal is to support the development of more resilient regional communities through the establishment of permanent infrastructure, the provision of training and career opportunities to local residents, and the creation of local economic opportunities (for service providers). We aim to leave a positive legacy that will long outlive the life of our exploration programs and any future mining operations.

Thunderstruck values strong and positive relationships with local communities. We are committed to clear and regular communications about our operations and development activities, and welcome community members to engage with us directly about any of our projects.
