

Vancouver, British Columbia--(Newsfile Corp. - March 5, 2019) - Thunderstruck Resources Ltd. (TSXV: AWE) (OTCQB: THURF) ("Thunderstruck Resources" or the "Company") is pleased to announce its intention to complete a non-brokered private placement (the "Offering") of up to 10,000,000 units (the "Units") at a price of CDN\$0.10 per Unit for gross proceeds of up to CDN\$1,000,000. Each Unit will consist of one common share in the capital of the Company (a "Share") and one-half of one non-transferable common share purchase warrant (each whole common share purchase warrant, a "Warrant"). Each whole Warrant will be exercisable to acquire one Share at an exercise price of CDN\$0.20 per Share for a period of 36 months from the date of issuance, subject to the following acceleration right. If, at any time after the date that is 4 months and one day after the date of issuance of the Warrant, the closing price of the Company's common shares on the TSX Venture Exchange (or such other stock exchange on which the common shares may be traded from time to time) is at or above CDN\$0.45 per share for a period of 20 consecutive trading days (the "Triggering Event"), in which event the Company may, within 10 days of the Triggering Event, accelerate the expiry date of the Warrants by giving notice thereof to the holders of the Warrants, by way of news release, and in such case the Warrants will expire on the first day that is 30 business days after the date on which such notice is given by the Company announcing the Triggering Event.

The Offering is available to investors in reliance on exemptions from the prospectus requirement set out in National Instrument 45-106 Prospectus Exemptions and to existing shareholders of the Company and to investors who have received investment advice and to existing shareholders of the Company and to investors who have received investment advice in reliance on BC Instrument 45-534 Exemption from prospectus requirement for certain trades to existing security holders and the corresponding blanket orders and rules in the other Canadian jurisdictions (collectively, the "Existing Security Holder Exemption"). The Existing Security Holder Exemption is available in each of the provinces and territories of Canada to a person or company who became a shareholder of the Company on or before March 4, 2019 and continues to be a shareholder of the Company, subject to a maximum investment of CDN\$15,000 using the Existing Security Holder Exemption in a 12-month period unless the shareholder has obtained advice regarding the suitability of the investment from a person registered as an investment dealer in the shareholder's jurisdiction. As required by the Existing Security Holder Exemption, the Company confirms there is no material fact or material change relating to the Company that has not been generally disclosed.

The Offering is not subject to a minimum subscription amount. If the Offering is oversubscribed, unless the Company determines to increase the maximum gross proceeds of the Offering and receives approval from the TSX Venture Exchange ("TSX-V") for such increase, the Company will allocate the Units issued under the Offering to those subscribers whose subscriptions were first received by the Company. A subscription will be deemed to be received when a completed subscription agreement together with payment of the subscription amount has been received by the Company. Certain insiders of the Company may acquire Units in the Offering. Any participation by insiders in the Private Placement would constitute a "related party transaction" as defined under Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions ("MI 61-101"). However, the Company expects such participation would be exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as the fair market value of the Units subscribed for by the insiders, nor the consideration for the Units paid by such insiders, would exceed 25% of the Company's market capitalization.

Thunderstruck Resources intends to use the proceeds from the offering for ground geophysical survey completion on the Rama copper porphyry and Liwa gold prospect, Liwa Creek trenching for gold in soil anomaly, and commence diamond or man-portable drilling on the Rama and/or Liwa projects.

Closing of the Offering is subject to approval of the TSX Venture Exchange. The securities issued under the Offering, and any Shares that may be issuable on exercise of any such securities, will be subject to a statutory hold period expiring four months and one day from the date of issuance of such securities.
